AFFINITY 2009

Winemakers notes

This wine is intensely dark and rich in colour – almost ink black. An exceptionally complex wine with black cherries, cassis and cloves on the nose. Full bodied, succulent and approachable. Firm but elegantly integrated tannins

The Harvest

The components of this Bordeaux blend are picked at optimal ripeness and harvested separately.

In the Cellar

The components were separately vinified and matured. Barrel selection for the blend occurred after 24 months of maturation of the individual components in French oak. 66% New.

Cultivar Composition

50% Cabernet Sauvignon, 30% Merlot, 15% Cabernet Franc, 5% Petit Verdot

Botanical sketch

Our wines are linked to a specific flower- the characteristics of the wine are symbolized by the particular flower on the label.

Geissorhiza radians (Wine Cup)

Geissorhiza is a large genus of small to medium corm bearing plants in the Iridaceae family. *Geissorhiza radians* is one of the most sought after. It grows to 15cm tall & has very attractive deep blue flowers with red centres.

The Wine cup is our core flower representing the core-wine of our range The Affinity Blend.
